

HSC MODERN HISTORY IN-DEPTH STUDY DAYS

The Sydney Jewish Museum's HSC Modern History In-Depth Study Days focus on providing students with a deeper understanding of syllabus key features, historiography, and oral testimony. This year we are offering days on **Part II: National Studies Option C: Germany 1918-1939** and **Part IV: International Studies of Peace and Conflict Option B: Conflict in Europe**.

Our study days begin with an in-depth seminar focusing on one of the key features of the option. Delivered by an expert educator, the seminar is designed to help students draw connections between content areas, providing an in-depth understanding of the issues at the core of the option. This is followed by an essay and study skills workshop providing helpful hints and tricks for students to make the most of their time during study and in the exam room.

After lunch, students will hear from a Holocaust Survivor. This testimony is a unique opportunity for students to hear a survivor give their own personal perspective on a specific syllabus point. This testimony will be unpacked by an expert educator, focusing particularly on methods of historical investigation.

April 10th, 2018 (School Term)

April 23rd, 2018 (School Holidays)
